Summer School: Create a Digital Scholarly Edition From Scratch

A five-day Summer School, from **22 - 26 September**, introducing researchers to creating, visualising, publishing and preserving digital scholarly editions. This workshop provides a general introduction to and guided practice for creating digital scholarly editions using the community-standard eXtensible Markup Language (XML).

We are delighted to announce our instructors, Elli Mylonas (Brown University), Floriane Chiffolleau (Sorbonne University), Roberto Rosselli Del Turco (University of Turin), Chantal Pivetta (Lund University), Renato Caenaro (SilentWave), Mina Monier (MF Norwegian School of Theology, Religion and Society), Annika Rockenberger (University of Oslo), and Federico Aurora (University of Oslo).

DOIs for BærUt! blog articles

We're happy to announce that we have been registered in the Open Edition catalogue with our academic blog

<https://dsenetwork.hypotheses.org/>.

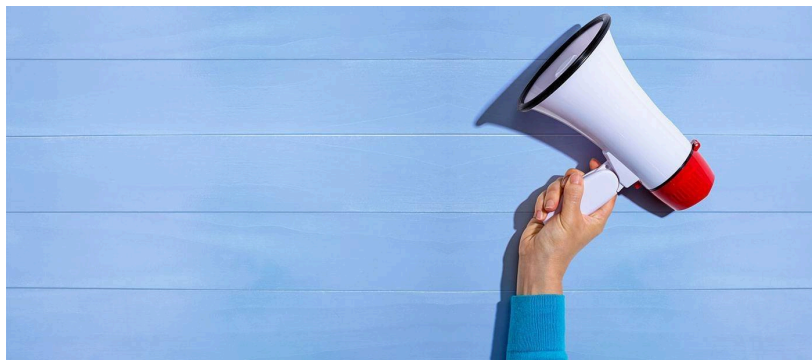

"OpenEdition provides a [catalogue](#), allowing people to discover blogs. The inclusion of a Hypotheses blog in the OpenEdition catalogue, means a better referencing of the blog in search engines, indexation of the blog as well as its articles in [Isidore](#), assignment of DOI DataCite (Digital Objective Identifier) to blog posts."

This will significantly increase the visibility of our blog and you can more easily cite and refer to blog posts by using the DOI.

We would like to increase publication frequency and invite all network members to contribute to the blog! Let us know and we will create a User for you on the platform.

We invite you to join the BærUt Zotero-group library. The library is updated regularly and includes full texts.

Members are also encouraged to share and add relevant items to the library. [Click here to join the group.](#)
