DOIs for BærUt! blog articles

We're happy to announce that we have been registered in the Open Edition catalogue with our academic blog
<https://dsenetwork.hypotheses.org/>.

"OpenEdition provides a [catalogue](#), allowing people to discover blogs. The inclusion of a Hypotheses blog in the OpenEdition catalogue, means a better referencing of the blog in search engines, indexation of the blog as well as its articles in [Isidore](#), assignment of DOI DataCite (Digital Objective Identifier) to blog posts."

This will significantly increase the visibility of our blog and you can more easily cite and refer to blog posts by using the DOI.

We would like to increase publication frequency and invite all network members to contribute to the blog! Let us know and we will create a User for you on the platform.
